Company	Review
Avodha	"Exceptional Experience with Avodha! I recently had the pleasure of using Avodha's services, and I was blown away by the speed and seamless, and the team's responsiveness was impressive. The fast service was a game-changer for me, saving me valuable time and effort. I highly recor reliable and swift solutions.
Aspire IT Academy	"In my experience, having very dedicated trainers, good support for placements, and good cor ,provide better environment.
Zoople Technologies	"Worst institute! + Fake build up! They don't follow up after course completion, and the so-cal scam. Don't fall for it. A complete waste of money and time. Tried contacting officials, but no p Interested to waste time you can definitely join zoople Technologies

| Excellent training institute to develop your Skills and knowledge. I have studied here Software Testing which was awesome class and i have learned many things.And my tutor is Aleesha mam, mam is very friendly and supportive. |
| Hello everyone, This is alert to everyone who really wants to learn and get job please dont waste your money in this institute.Overall experience is very bad and disappointing .I would like to say in detail about my experience that Trainer are so unprofessional,not experienced people,Academy has only commitments of making money they are not bothered who are their students,they dont keep any record or data propelry after taking admission.Every single we have to pressurize for getting things.I have completed one month of internship also which is totally useless .No practical experience you will get nor any placement assistance will get.Many people who i know they had same experience still they have written good reviews ,i mean why dont speak out and such unprofessional,unethical work has to stop. I also wanted to update one more thing as I have reviewed this in their page now they offering me fake job offers with no proper information or company's name . HR manager is telling me to update the review as to give them good review instead of this.Compeletely wastage of time and money . |
| I have good experience from Aspire IT Academy, I had excellent service from my tutor aleesha mam and administration.i really enjoyed doing the course, it gave me lots of new knowledge about my course. Aleesha mam was very helpful and responsive throughout entire length of my course. |
| One of the worst academy in kochi. Don't waste money . |
| I have done my Software testing course from Aspire IT Academy, currently Iam doing my internship. Our trainer was Aleesha Mam she is very supportive and always approachable for any doubt. Thank you entire team for this opportunity. |
| I feel so great about the service of Aspire Academy. I had joined here for 2 months AI course, and my trainer Aparna Miss taught me very well. She gave me valuable practical classes and theory classes also.I feel So happy with the 2 months online AI course. |
| I had completed software testing course from aspire and it was a great learning experience.Aleesha mam was my trainer she is so supportive and explained everything with examples.That make's us to understand easily.She was always approachable for any doubts thank you Aleesha mam and Aspire Team. |
| I have done my software testing course from Aspire IT Academy. Classes taken by Aleesha was very good and she was very friendly and tries to clarify all doubts. Thank you Aleesha and Aspire for the opportunity.. |
| One of the best training classes I have ever attended. Automation and the manual classes were awesome. The way of explaining ectopic and the time that our ma'am spend to solve our issues while doing the selenium codes were incredible. Thank you very much for the clear class, dedication, and your patience dear Aleesha Ma'am. We all are grateful to you. Thank you Aspire team. |
| Thanks for Aspire IT Academy. I had completed software testing course from Aspire IT Academy.The classes was conducted by Aleesha mam. She is very friendly..it was a great learning experience for me. |
| "In my experience, having very dedicated trainers, good support for placements, and good communication with inquiries ,provide better environment. |
| AS a student ofthis intitution i am very happy to share my experience especially ;@aleesha miss she help me lot and as a trainer she will give full support in any time .. I really liked her classes quality |
